value, and the best horse medicine with which I am accuainted. I was some tiniq since at the fivery-stable of
Daniel Comings, of Maunes City, and found his horses,
fifteen in number, afficied with a cough. I advised him
to give them St John's Condition Powders. In eight or
ien days I learned he had relieved my advice, and that
his horses were then perfectly well.

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.

No one remedy is louder called for by the pecessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will cradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quan-

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cune" expels the missnatic poison of Feven and Agun from the system and prevents the develop-ment of the disease, if taken on the first spproach of its premonitory symptoms. It is not only the best remedy ever yet discover d for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

had the disease. had the disease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catamb, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause. all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curr" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immialike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious-districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittenta, if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleane, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiconess, Hearthurn, Headache arising from disordered Stomach, Naussa, Indigestion, Pain in and Married Inaction of the Bowers, Flatulary, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. Bo wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our elimate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefit on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
